Tonight we were treated to an excellent lecture by **David Oliver**. He covered the nuances of Restaurant Magic, such as how to play to a loaded table. He demonstrated the tricks he does at actual tables, such as a silk vanish using a Lefty, sponge balls, ambitious card, and coins across. Following the explanations of those effects, David showed us the climax to his coin routine with the appearance and sudden vanish of a giant coin. For that vanish he uses a Topit, which he installed himself. To demonstrate the power of the Topit, he vanished a dinner plate! Besides effects, David also shared tales of his career timeline, including the real story of Why He No Longer Uses Birds. This was a great evening with a true Pro.
